Body Art: Tattoo Designs Coloring Book (Dover Design Coloring Books)

Synopsis

They're everywhere, from the high-profile ink sported by celebrities, rock stars, and top athletes to the everyday tats of college students, housewives, and businessmen. These 30 ready-to-color illustrations feature men and women showing off an awesome array of full-body tattoos, covering flesh canvases of arms, legs, chests, and backs.

Grade Level: 3 - 5

Customer Reviews

This book has the same problem that the other Dover coloring book had; designs printed on both sides of the pages. If you like to use markers for these designs, as I do, you sacrifice the design on the back of the page.

I have done lots of the Dover coloring books, but this one is my favorite. The images are really elegant and varied enough that they're not boring. The designs are large enough that you can add details very easily. The only thing that isn't great about this is that the pages are two sided. So if you mean to display them you are forced to choose. Or you can buy two.

I am a big fan of the Dover coloring books. They always have such fun themes and different things. I also really love how heavy the pages are. I prefer to color with watercolor color pencils because the

pages are strong enough to take the application well. This book is a fun one! It's all tattoo and body art designs. The pages are full of nice illustrations that have plenty of room for multiple color applications. I think it's my favorite of all the Dover books thus far. There really are no complaints when it comes to this book.

This book is awesome!! The artwork is fantastic. It is double sided pages but I can get down with it because the images are so great!

This book is excellent! The photo is a work in progress. I bought the book months ago, but when I got Prismacolor pencils for a gift, I bought it again so I could really make the pictures pop! Love this book

Â I love this book. It does have very detailed pages to color. They do turn out beautiful when you are done. I love to look at all the beautiful tattoo's out there and this book just highlights them. Reviewed by PINPOP

After working on several Mandalas and other adult coloring books of various themes. I was looking to branch out and was looking especially portraits. I decided on this this book having an interest in tattoo designs. When this book arrived I was very disappointed at the layout of the illustrations . The tattoos are largely flash designs, which isn't bad except for the way they are presented would not work well on the body the way they were drawn. Some designs also were overcrowded. The facial expressions chosen in some pictures, I believe were an attempt at being sexy but they appear more creepy. Not a good depiction of tattoos or portrait art. Personally didn't like it and would not recommend.

My daughter is into tattooage and tattoo coloring books, so we've been waiting since November for this January release. We have not been disappointed. The pictures are great and once in color, really pop!
