Customer Reviews

To visit the Burne-Jones exhibition at New York's Metropolitan Museum of Art is a thrill beyond describing. It is like being surrounded by old friends of the sort usually found in dreams. The stunning, fully illustrated catalogue that accompanies the show is perhaps the best catalogue I have seen, most notably for its impeccable and stimulating essays, and for its phenomenal wealth of color reproductions. This book is a stunner, despite two or three flipped pictures(which I guess could happen to anyone in the rush to get such an involved publication ready in time!) I would advise all bookshops, libraries and Burne-Jones lovers to order this book now for its September release. It is sure to be the most valuable book on its subject for many years to come.

This is a beautiful book. The prose is readable and informative, and the reproductions are lovely. It's not a complete catalogue of Burne-Jones (oh, that somebody would publish such a thing!), but it's the best book on his art I've seen.
