This is a really lovely book of hand-drawn designs of cats on quilts. These are two of my favorite things. I have a beautiful picture of my favorite kitty (who has long since passed on) sitting on her

favorite quilt. It is a picture that I love to look at and remember her by. Now, with this beautiful coloring book, I can color and think of her (and my other pets from the present and past) at the same time. What is outstanding and unique about this coloring book is that you are given full size coloring pages of each design as well as a 4 x 6 inch version as well. All of the designs are printed on one side of the paper (with the back left blank) though the smaller version are printed two to a page. All of the designs have blank space on all sides, so coloring into corners is not an issue with this book. The designs are printed on white non-perforated paper. The paper is medium weight and all markers and gel pens bleed through. Not a problem â€” I am now using a piece of chipboard under my work to keep ink from leaking through to ruin the design below. You can use heavyweight paper or cardstock but be sure to check to see how many layers you need to keep it from leaking through. The binding of this book is glued rather than sewn or stapled. There is plenty of room to cut the page out if you wish.

I quilt and I love cats, so I immediately ordered this book! I really like how the artist gives you the basic cat shape, and then you can fill in any colors to make it look like different breeds (see my sample). Another nice feature that I haven't seen in any other coloring book, is that each page is duplicated in 4x6" size in the back of the book. This allowed me to do the same page in two different types of cats. And the smaller one will be used to send as a card to my mother-in-law! As a quilter, I love filling in the quilts with colors, thus allowing me to come up with new plans for my quilting!

My kids aged 11 and 17 both loved it. The varieties of pictures gave them all different difficulties.. easy to hard to allow them to be more creative and challenge them enough. My wife is a cat lover and loves to paint as well. She loves this book as much as my kids do. I highly recommend this for all kind of art lovers - easy to hard !!!

Cats and Quilts is awesome! There is detail if you want it, but it isn't frustrating for the more casual younger artists in my house. Perfect mix of geometry patterns and animals. I hope this author makes more like it. The picture is the first one my 12 year old did. She was occupied for hours with this book.

Adult coloring books are a great way to pass the time and are great for children of all ages. this book is fun and the family can join in together. highly recommended. the book includes full page and half page 4x6" versions that you can color and frame.

This book has images of cats on different quilts, blankets, and pillows. The images are full size on the page, and in the back they are printed half size, so you can frame them. The images are printed on one side of the paper only, but the pages aren't perforated (this isn't a concern to me, but I know others prefer perforated books). I love the variety of images. Some are more simple, like the image I uploaded as a sample, while others are quite detailed. The images can be colored as simply or as detailed as you like. I like the author's way of drawing the cats. They are realistically drawn and not cartoon-like. There is even a Sphinx cat in the book, which was a nice surprise. One small quibble is that the paper isn't as thick as I'd prefer. If you're planning to use Sharpies or other markers, put a piece of paper behind or you may get some bleed through. I used Sharpies, gel pens, crayons, and Prismacolor pencils on the pages, and all work nicely. This book is great and a "must have" if you love cats, quilts or just love coloring!

I suck at drawing, so when I got one of these as a gift I thought it was a strange choice for me. However I dug into it and found it strangely satisfying. I still suck at drawing but I can at least color stuff in and the result is something that looks pretty decent, yet comes out how I imagined it. There might be something more to this whole coloring book for adults thing that I ever imagined there could be. The book is well done. I can't say that cats and quilts are my thing, but the illustrations are nicely done, and carefully made what seemed like just the right amount of details in just the right places. You definitely want to use colored pencils. I "borrowed" my kids' crayons for my first one and it didn't come out so well.

Very impressed with the coloring book. It didn't seem to be overtly easy, nor was it so difficult that one could only stare at it in horror. This was given as a gift to my brother-in-law, and I believe he was really impressed with it. I know I would have been! The paper was average weight, not so thin that anything other than a pencil would leak thru. I believe that even when using a pen, it would hold the ink well. Although, I would be tempted to put parchment paper or wax paper behind it the first time just to make sure. The images of the cats and quilts were adorable. Of course, the hairless cat I couldn't help but wrinkle my nose at it. All in all, I truly believe this was money well spent. I'd do it again, if for anything, to buy me a book for my own purposes.
