Customer Reviews

Very misleading, poor quality coloring book. There were no previous reviewers however I did find after ordering, many other reviews by those who have purchased other books by Nona Meyers. First there are not Biblical themes per say. There are coloring pages that are of Jesus in different Biblical representations and several of the Blessed Mother. These are the only two images throughout the book. There are no Scripture verses accompanying the pages. The numbers are strewn throughout each depiction and very small. For large areas instead of one number there are countless numbers covering the space. The placement of the numbers are so close together I am unsure, in places, whether the number is a single or double digit. The pages are very busy with lots of squiggles and lines. 13 pages are color by number, followed by 13 repeats that are not color by number. The page is poor quality with ink dots that I don't think are supposed to be a part of the picture. It would cost me more to return it than to be worthwhile. I do not recommend this book to anyone.

Very disappointing. Book has two version of each pic. One version has the coloring area filled with the number of the color. The other pic version just has outlines of each color area. I find neither one of the desirable and these are some of my favorite pictures of Jesus, I have three other color by number books and they are far superior. This book's paper is much to flimsy for anything but pencils with a light touch. Check this out thoroughly before buying & make sure it's what you are looking for. Maybe we can get "Creative Haven" Books to take on these pics. They have great Color By Number coloring books but I haven't seen a Christian one from them yet!

I really wanted to like this book as there are not a lot of Christian themed coloring books out there. The book has approximately 5 or 6 images that are repeated several times. The color-by-numbers has the number throughout the section, not just a one time printing, but completely covers the area to be colored. This shows through the color used and is very confusing in small sections. The design is repeated later on, sometimes 2 or 3 times, this time without the numbers. The book drawings have a strong Catholic orientation, with a picture of Mary, the blessed heart etc. I considered returning it.

I really like the Biblical designs but the numbers are too small and confusing. I will not be recommending this book to anyone.
