The Music Tree Activities Book: Time To Begin (Frances Clark Library For Piano Students)

Synopsis

Time to Begin Activities is colorful, cheerful and a delight for students to complete either at the lesson or at home. Activities reinforce reading, rhythm and theory introduced in Time to Begin. Each unit includes at least one game-like activity. As students near the grand staff, note names direction and intervals become an integrated activity.

Customer Reviews

This book is great for younger music students. My favorite part is how it teaches children how to conceptualize steps, skips - intervals in general. Lots of activities for them to figure those things out. I'm a piano teacher, and this one gets the point across.

Book is easy for children to understand, also very aesthetically pleasing. It's great for early beginners; little children love coloring activities! So grateful how this book makes theory learning fun and enjoyable for my students!

WAs going to teach my daughter's how to play piano so I got these books. Ultimately, decided to go with a student in the neighborhood to teach and she uses these books. She likes them and the girls are playing so must be working!

The students like the activities and it really supports the learning that they do in the lesson books. I like them as supplements to the lesson books, as it reinforces the skills we've introduced.

What a wonderful book to go along with The Music Tree, Time to Begin! It enhances and supplements the learning experience. Kids actually have fun learning how to play the piano and look forward to the next lesson.

I ordered this, they sent a towel instead. So I returned the towel for a refund and bought the Music Tree book locally. I am not sure why I would ask me to review this product after they screwed up shipping it to me. Well, the book I bought locally is great. My 5 y.o. is doing great with this book. He is much more invigorated about playing piano after spending a year playing twinkle-twinkle Little Star in the Suzuki Method.

we bought this for our 8 year old to go along with his piano lessons. the activities were short and he was able to complete them on his own. i'd say that it definitely a nice addition to his lessons and helped him to learn all the basics.

My daughter needed this book for her piano class. this book came on time and it is also a great one to start with beginners, my daughter is having fun with it.
