Customer Reviews

love to color still even at my age I just find it so soothing hard to find books for adults and i love tats so has some really great pics to color worth the cost - and if you love tats you may want one in the book

All I can say is wow. These Adult coloring books are great stress relievers and this particular one is full of detail and beautiful art work to make your own. Me and my husband have been telling everyone about these and I will personally be recommending this particular one to all my friends, family and coworkers.

This book has a lot of nice pictures to choose from that aren't too complex but not too simple either. Would definitely recommend to anyone who loves to play with different colors and layering and shading as the flowers make for good subject matter for that type of technique.

I wasn't sure if I would like this book. I love to color and this book has very nice art work. It will be very relaxing coloring in this book. A pleasant surprise. I would buy other books like this.

I bought this coloring book because I wanted something a little more detailed and mature to color. The artwork in this book is phenomenal! I definitely recommend this book to anyone who is looking for something a little more interesting to color with amazing artwork.

Love this adult coloring book because of its intricate pages and inspiring layouts. It definitely evokes a wanting to get tattoos. Once colored, it's bold, bright, and makes a statement.

I didn't know about the skulls or such things on the coloring book. And I dislike those. But they were nice enough to refund half. I also love the rest of the book!

I give it a 4 stars because I thought it was gonna have more roses than anything but no it doesn't but it is a nice book tho... Recommended
