Color Me Cluttered: A Coloring Book To Transform Everyday Chaos Into Art

Synopsis

A coloring book for grown-ups, featuring the everyday clutter all around us. For anyone who's enjoyed *The Secret Garden*, *Outside the Lines*, or any other coloring book that appeals to all ages, here's one with a twist. Durell Godfrey's intricate illustrations of the stuff in our busy lives - crowded kitchen tables, chaotic living rooms, and paper-strewn desks - are all ready to be brought to life with markers and crayons. Tidying up can be cathartic, but then again so can coloring. *Color Me Cluttered* offers a relaxing escape for pack rats and neat freaks alike. Just add color.

very engaging coloring book- full of charm and fun things that can be found around any dwelling- coffee cups and sunglasses, lost shoes, and a love letter or two. happy coloring. and remember to test your pencil colors first so you know what results to expect, AND consider white background (paper color) as a color- you don't have to fill in everything. start with a leaf or a shoe, and get to know the world of the room you are coloring. enjoy yourself.

Here's the real deal. No fairy princesses, mandalas, enchanted forests or mandelbrots. My favorite is the single socks crumpled into a laundry basket. A million times more fun to color than to ball them up. Lots of charming rooms, some evocative of our single pasts, some quite up to date with the busyness and happiness of chaotic household trivia. A perfect Christmas present to give along with a nice box of colored pencils--I bought two copies for myself, one to color and one to keep

pristine forever. This is too beautifully drawn for crayons and the paper is strong enough for paints with a tiny brush. Such fun!

LOVE, LOVE, LOVE this book!!! I can hardly wait to color. The joy of this book is the variety of pictures that show everyday life .ie: a kitchen table covered with salad makings, art supplies, a car trunk full of plants, a bookcase, a busy office and so much more. The pictures are printed on one side only and the paper is white and fairly thick. Take a chance on this book, you won't be disappointed!!!

I love this coloring book - Durell's love of art and illustration has opened up a new door to coloring books - her own illustrations in this book are personal - and then the colors that I add make it my own - which is so much fun! I use it at my job, which is in Emergency Services, as well as my co-workers, and it makes a totally crazy day less stressful. Thank you Durell for making it FUN!

My very favorite coloring book - and I have probably thirty. I've given it to several of my friends as a gift also, and they feel the same. I hope Durrell Godfrey creates more books - I'd buy every one at least twice!

I totally LOVE this book! Its the story of my life, in coloring format! LOL. I live in a tiny apartment, and things remain cluttered due to my extremely painful disability making it difficult for me to do much. This book has already made me chuckle numerous times, and I look forward to coloring even more in it!

What fun! And more exciting than coloring in endless circles and patterns. This is the stuff of real life. The more you color, the more you discover. And yes it's nice to leave some items "blank" on the page. The choice is yours!

This book is much more fun than I imagined it could be! The pictures are adorable. I bet most of our houses actually look like this. This depicts the happy clutter of a warm, loving home.
