# Shoujo Basics: Christopher Hart's Draw Manga Now!

## Synopsis

Focusing on the most popular style of manga, Shoujo Basics teaches readers how to draw all the trademark characteristics of shoujo characters; from lessons on glimmering eyes, flowing hair, and dramatic expressions to more basic elements such as the body, face, and poses, this book covers everything readers need to go from shoujo fans to shoujo artists. After an introduction to these elements, readers will have a chance to follow along Hart's in-depth step-by-steps, and will even be invited to draw on their own, right in the book's pages.

## Customer Reviews

I already know how to draw shounen manga but this really helps me when I get stuck,when drawing shoujo. It covers most of the basics,it has some pages in the back for you practice (kind of like a math book). I just wished it would teach you more,but still one of the best how to draw manga basics books I've read. [>Ã Â -Ã Â ]>Hug?

Nice illustrations, step by step technique and tons of poses. Love it along with other books by Hart.

I bought this for my 13 year old daughter, and she has been keeping herself busy drawing manga for a month now. I haven't looked very closely at the instruction (she works by herself in her room, because, after all, she is a teenager now), but her finished drawings look spectacular! Bought her some prismapencils to color her drawings, and she's very happy.

Very good book i scored for my Christopher Harts Collection. It describes the style and give you examples for you to practice and learn how to master the Shoujo style.
