I love this book! The sayings are provocative but inappropriate for anyone under 18. Although I am loving this book, I was a tad disappointed that the book was small which made the designs smaller. With that said, I thought that for the value the book had a good number of designs to color. The paper quality is good and all of the designs are one sided. This is important because many people use markers on their pages and they tend to bleed through the paper. I just wish that the pages were perforated so I could rip out each page that I wish to color. The author makes up for it though with making the entire book available in PDF form; the link is printed on a page towards the end of the book. On top of that, the author includes a bonus link for 10 free pages (PDF's). All in all, I love this book!

Very fun to color. NOT FOR YOUNGER PEOPLE. Dont recommend using colored pencils unless you keep them sharp as the details are small. Great with fine tip markers. Love the sayings; post them around the work place for added relaxation

I like it, Though I wish there was more to color on it. Don't get me wrong the words and animals are great fun but the border is the same on them all. I love the variety of words given though. these

books really are a blast. I had planned on giving this as a gift but may just keep it for myself.

Love love love this book. And it is just what it says a slutty little minx of a book. The designs are such fun to color and I guarantee you'll think of someone to gift each page to. I know I have. Cute little animals and fun little flowers entertwine around the letters and frame each word. These may not be your most pc friendly pages but I'm considering a slutty gallery of choice framed ones. The book is single sided pages and of good quality paper. Pencils, gel pens, and fine point markers all work equally well. I would suggest if using markers to place a plain sheet of paper between the pages. Markers tend to bleed through almost any paper. Have fun and happy coloring

Another cute book by the author. I do like that the author includes a PDF copy with the purchase as I can reprint and color to my hearts content. James do offer up a preview of his book so you can take a look at the style and decide if this is a book for you before buy it. This was a perfect addition for my adult coloring books and certainly feeds my habit, I mean hobby!!

LOVE it. More provocative than the others but it is HILARIOUS and fantastic. It's affordable and well worth every penny. I hope to see tons more books in the future and you can count on me as a customer for life!!!

Small, cute, and amusing. Another win from James (especially at the price I got it for). The designs around the edges are all the same, yes, but I don't mind the consistency there. Designs are also similar in the lettering but it's cute and not horribly complex. Nice to relax with~

Not as exciting as I would have hoped. There weren't many images displayed when I bought it so I didn't really know what to expect. Pretty much everything looks like the cover of the book except with different words. There is no real variety and the patterns are pretty consistent--little flowers and animals. It's definitely funny to have the swear words with the cute animals and flowers, but some variety of backgrounds would have been nice. Or even some bigger flowers. There's just too much empty background.
