20 Ways To Draw A Dress And 44 Other Fabulous Fashions And Accessories: A Sketchbook For Artists, Designers, And Doodlers

Synopsis

This inspiring sketchbook is part of the new 20 Ways series from Quarry Books, designed to offer artists, designers, and doodlers a fun and sophisticated collection of illustrating fun. Each spread features 20 inspiring illustrated examples of 45 themes - black dresses, summery hats, stylish shoes, faux fur coats, and much, much more - with blank space for you to draw your take on 20 Ways to Draw a Dress. This is not a step-by-step technique book--rather, the stylized dresses are simplified, modernized, and reduced to the most basic elements, showing you how simple abstract shapes and forms meld to create the building blocks of any item that you want to draw. Each of the 20 interpretations provides a different, interesting approach to drawing a single item, providing loads of inspiration for your own drawing. Presented in the author's uniquely creative style, this engaging and motivational practice book provides a new take on the world of sketching, doodling, and designing. Get out your favorite drawing tool, and remember, there are not just 20 Ways to Draw a Dress!

She wants to be a fashion designer but complained to me that she cannot draw! This book contains simplified drawings of fashions to stimulate her imagination with blank pages she can sketch on. It provides a language she can use to communicate designs without several years of anatomy and drawing classes! How perfect was this birthday gift for a 13 year old aspiring to be a wedding dress

designer!

I want my granddaughters to learn to draw clothing, so I bought this book at my daughter's recommendation for each of the two oldest girls. This book has been a hit with them and I'm sure will be used even more in the coming year.

LOVE this series of art/drawing/doodling how-to books. They're all so much more than the title -- we have at least five of the titles and LOVE them all. As a mom, I like the different ways of drawing different things -- they help me with ideas when my kids ask me to help them figure out how to draw something.

The description gives a better idea of what this book really is, the title of the book is a little deceiving in my opinion. This book is just simple sketches you can follow for drawing dresses and accessories. IT DOES NOT give any drawing instructions at all! IT does NOT show HOW to do of these sketches, it is just sketched images and blank pages for drawing on, that is it.

Worth time and money spent on this book. The book has helped draw some of my own designs. I'm very happy with this book and have been drawing from the day I received 20 ways to draw a dress.

I returned it at my expense. It's not instructional, which was what I wanted. Rather, it is a collection of the author's drawings. Maybe I need a class instead of a book, but I was looking for an instructional book.

I love this whole series.. Great ideas and visual aids for artists and art educators. Can't wait to have them all!

Cute book! Includes pages of dresses, jackets, necklaces, etc. and a blank page so you can try to copy the clothes on your own. It would be better with a step-by-step guide, but most of the designs are simple enough.
