Decorative Arts 1920s (Varia)

Synopsis

Taschen's Decorative Art series, whose six installments now span the 20th century up through the 1970s, carefully reproduces the best of Studio Magazine's Decorative Art yearbook. Published annually from 1906 until 1980, the yearbook was dedicated to the latest currents in architecture, interiors, furniture, lighting, glassware, textiles, metalware, and ceramics. Since the publication went out of print, the now hard-to-find yearbooks have become highly prized by collectors and dealers. So how can the rest of us have a look? Taschen, of course! Preserving the yearbooks' original page layouts, Taschen's new Decorative Art books bring you an authentic experience of each decade's design trends and styles. Collect them all! This new installment in Taschen's Decorative Art series takes us back to the Roaring Twenties, a time of great optimism and technological progress which saw the birth of new materials and styles in building and design. The Art Deco movement, a great departure from Art Nouveau, surfaced in the early 20s, drawing influences from Futurism, Cubism, Neo-Classicism, and Egyptian and African Art. While Art Deco, flaunting excess and luxury, largely dominated the style of the 1920s, another new movement, Modernism, began to make itself known towards the end of the decade. For the first time, materials such as concrete, plate glass, and tubular metal were beginning to appear; following the dictum "form follows function", utilitarian simplicity and classic geometry were the Modernists' driving principles, as seen in the work of Walter Gropius, Marcel Breuer, and Ludwig Mies van de Rohe, to name a few. Moving from the spirit of the Jazz Age to the cool simplicity of LeCorbusier's early "machines for living", Decorative Art 1920s is a fabulous tour through the groundbreaking innovations of interior design and architecture in the century's wildest decade.

Customer Reviews

This is a solid reference work, one of a series, thick as a phone book, and full of information. I was unfamiliar with this book, now being reissued, and so was surprised (and a little disappointed) at the fact that it has precious few color plates. The zillions of illustrations are for the most part reproductions of contemporary 1920's ads and other published materials - and so are in black and white. There is an enormous amount of good material in this book - furniture, houses, and a lot of decorative and/or functional objects - but the casual reader (someone who is not a confirmed history-of-design maven) would be helped by having seen the artifacts in another venue - whether in museums, private collections, or in color photographs. This is a great resource for readers who are familiar with, and committed to, the subject.

TASCHEN's Decorative Art series spans the 20th century through the 1970s and carefully reproduces the best of Studio Magazine's Decorative Art yearbooks. Published annually from 1906 until 1980, the yearbook was dedicated to the latest currents in architecture, interiors, furniture, lighting, glassware, textiles, metalware, and ceramics, and remained on the cutting edge throughout its nearly eight-decade run. Since going out of print, the now hard-to-find yearbooks have been highly prized by collectors and dealers. Preserving the yearbooks' original page layouts, TASCHEN's Decorative Art books bring you an authentic experience of each decade's design trends and styles. The now complete six-volume set is an essential addition to the comprehensive design library and the devoted collector will want them all. Decorative Art 1920s - Moving from the spirit of the Jazz Age to the cool simplicity of Le Corbusier's early "machines for living", Decorative Art 1920s is a survey of the groundbreaking innovations of interior design and architecture in the century's wildest decade. Demonstrating the dictum that form follows function, this volume features the design output of Walter Gropius, Marcel Breuer, and Ludwig Mies van de Rohe, to name a few.
