Chris Kinsley beautifully captures the allure of Biltmore with lovely rhymes, hidden pictures and fantastic perspective. My children loved trying to be the first to find the hidden picture on each page, and each rhyme sparked conversation about life at Biltmore. The book provides insight into the Biltmore Estate for adults as well with lots of facts and information about both the known and off-the-beaten paths at Biltmore. A lovely book which I would recommend for children and adults!

I love everything written about Biltmore. This is a neat book to share with me three young grandsons. They go to Biltmore with me a couple of times a year. Hoping they catch my passion for

Biltmore. I'm glad I found this book.

This is a high quality book that is just beautifully done. The grounds of Biltmore can be a little overwhelming to visit, but this book shows you 26 places to see outside of the house in a concise and easy to understand way. There is a glossary describing each place, a map, and clever rhymes. Younger kids will love finding the various animals on each page (I have to admit I enjoyed looking for them also), and older kids and adults will love the beautiful pictures, map, and facts about Biltmore. Well worth it if you're planning a visit or want a memory of your trip.

This beautiful book is a wonderful way to introduce children and adults to the Biltmore. The photos, which include the wildlife and garden plantings, add appealing interest on every page. When I next visit my mother on her memory care unit, I will take the book to "read" with her to stimulate her lifelong love of the outdoors. Chris Kinsley has captured the essence of the Biltmore gardens, reminding me that there is much to see and enjoy. The photos brought back memories of the day we spent at Biltmore.

Biltmore Estate is one of our national treasures, and I love how Chris Kinsley has captured its beauty with photography, rhyme, and an ABC game/format. Children who visit Biltmore will be captivated by trying to spot the places in the book and adults will love the opportunity to use to book in an interactive way with children or grandchildren who visit with them. I recommend buying it before your visit to build excitement, using during the visit as a fun way to enhance your trip there, and then afterwards to enjoy the beautiful photography and capture your memories of a day well spent.

If you have visited Biltmore Estate you will love this beautiful, clever book by Chris Kinsley. If you haven't been you will also love it! The photographs are incredibly lovely and the poems are lyrical and charming. And there's something for young readers: featured on the alphabet pages are animals to discover! Also included is a map showing where each alphabetical feature is located, followed by an informative glossary full of fascinating facts. Exploring Biltmore Estate from A to Z is a stunning coffee table book, an informative read and a fun book for adults as well as children.

I just finished reading this book with my 7 year old granddaughter. How wonderful an experience for both of us. Anna loved looking for the hidden animals and insects on each page. The pictures are

beautiful and truly explores area of the estate I have not seen and brings to life stories of statues and other things on the estate. I guess the best way to say it is that this book is as much for adults as the the kids! We loved it!!!
