Customer Reviews

I love the spiral but the music is also very clearly printed. It has the songs that most Beethoven fans love to learn to play (at an intermediate level--some are more advanced.) I don't know if they are the original scores or not but they are very beautiful.

Umm, I think there might be a problem with the publishing of this book. My book has pages 49-64 duplicated in the book (it reads 49-64, then 49-64 again) then skips to page 81. Buyer beware!

On the kindle you can not read the sheet music and when you zoom in you van only see 2 measures at a time

great

Just started a couple months ago. And excited about the music in this book. I grew up with it and now I can play it.
