Customer Reviews

I will enjoy coloring in this book during the Christmas season. I don't care that the pictures look like they are for kids. I was a kid once and loved it.

Great pictures and patterns to color...good quality paper. I liked this book a lot...especially since I really love Christmas and anything to do with it...

can't wait to give them as gift they are just beautiful,I think everyone will enjoy coloring them for the holidays .Friends that are ill will really enjoy them.

I like this book very much. I ordered several for my grandkids. Some pictures are not too hard for young folks, but there are more complicated ones as well. Who cares if they go outside the lines anyway? A great pastime for getting in the Christmas mood. I will give them out at Thanksgiving dinner, I think.

There is no way, on God's green earth, that this book is an ADULT coloring book. It should not be

advertised as, geared towards, or expected to be adult in any way, shape or form. I would venture to guess that you could find all of these coloring pages in any third grader's classroom. As a matter of fact, I am positive I have had one or more of these on my refrigerator when my kids were in grade school. Save yourself the \$7 and download/print them for free on your computer from any of 1000 free coloring page websites. It appears that's what this publisher did. Speedy Publishing LLC might want to take another look at their marketing skills before they publish another one of these books advertised for adults. If you are looking for one of those trendy, adult, meditative coloring books to soothe your mind, buy one of those, not this one.

I'm enjoying this coloring book very much!

I like this book but I was looking forward to a little different type pictures. Although I enjoy it, some of the pictures look more kid friendly. I have colored some pretty Christmas scenes. I will be ordering more adult coloring books.

Decent book, but thin quality paper & pictures on both sides of paper which most adult books do not do.
