Customer Reviews

I'm sure you are curious as I was when I saw Adult Coloring Books for Kindle. I mean, how can you color on a Kindle. Well you can't....LOL! These are not so you can color on a Kindle. These are so you can get a preview of what is inside each wonderful Coloring Book before you buy the Paperback Version. And that's great! You can see the quality of the designs before you shell out for the whole book.Plus you get a Huge Bonus! Once you buy the Sample Kindle Version, you get a link to a Special Page where you can Download over 170 Free Adult Coloring Book Designs that you can Print out yourself! That I really Love. My grand kids love to color and I find them coloring in my Adult Coloring books, I don't love that. I pay a lot for those books. So now I can just print out these pages and let them color to their hearts content.This book, Wildlife Coloring Book shows you 10 sample designs of what you would get in the actual paper book. The book has 62 pages of great designs.This is an awesome coloring book. Beautiful and so detailed.*I received this product at a deep discount for my honest and unbiased opinion. However, I was not paid to write this review. This review is my full and honest opinion!! used to think that people who received discounts on

reviewed products were all dishonest just trying to get freebies or cheap products for writing fluff-filled reviews whether they actually liked the product or not, but I have since found out how things work since I started doing this and I mostly disagree with that now.

I was not sure what to expect when I ordered the Kindle Edition of this book. The book has a section in which all the reasons why adult coloring is beneficial to adult health is written. I honestly agree with everything that was written. After several pages going over the benefits of adult coloring, the ebook has pictures of the elephant mandalas that you could color if you buy the actual book. There is a link that you can go to that will allow you to print out pictures. But, they are not the pictures in this book. Still, the Kindle version is free and it allows you to view what is in the book. I like this as it allows me to make an educated decision as to whether or not I want to buy the book. The pictures are beautiful. They are detailed and are not repititious. If you love adult coloring that is detailed; but not to the point that it's unenjoyable, I think you'd love the actual book. I was not disappointed in this book as other people stated they were in their reviews. After all, it is the Kindle version. Obviously, you can't color on your Kindle. I hate it when people have ridiculous expectations & then write negative reviews based on those expectations. You can't color on a Kindle. So, you shouldn't give a 1 star rating because you can't color your ebook on the Kindle. It's really quite simple. This book provides some information on the benefits of adult coloring and it provides a preview of the pictures you will find in the paperback book. FYI, you can color in the paperback book. Big surprise. So, if you are like me and like to know what you are buying, this ebook is great. I can now purchase the paperback version after viewing the Kindle version and deciding that I would like to color the pictures found in the paperback version.

I am a huge lover of elephants. I have written many reviews on products such as floor mats two shirts two pillowcases that have elephants on them. I was absolutely delighted to find this adult coloring book centered around elephants. Although this is the Kindle version I am very interested and purchasing the paperback version because the images are absolutely stunning. But before I get to the description of the actual elephant images I want to explain how the book is introduced. Unfortunately while there is a link for free coloring e-books it only brings up an image there is not actually anything to click on unless I am missing something and anybody can correct me if I am wrong so that is one downfall of this. I have been involved in many different types of therapy. One of the most beneficial types of therapy for me as meditation and coloring or doodling. I like the idea of coloring pictures because for one it brings me back to my childhood and fond memories of coloring

in those flimsy coloring books. But it also gives me a purpose for what I am coloring. Most of the time I can sit for about an hour and color a picture. Looking at these elephants pictures some of them would take up to an hour and some of them might only take about 5 to 10 minutes. I like that there is variety to that. I have to say that if you are at all stressed in your life if you have high blood pressure if you're worried about dementia or Alzheimer's or if you would like more focus and meditation and or reduce your anxiety coloring is a great process. Even if you don't have any of that or worry about any of that it is the most common thing One can do aside from meditation in my experience. In fact it almost puts me in a meditation state like trance.
